Public-Access Compliance Through NIHMS

Zivich Research Group

Public-Access

You or your co-authors may receive NIH, NSF, or other funding

- That funding may be from tax-payers
- So obligation to make our work available to the public
  - Done through PMC (PubMed Central)
- Important for grant progress reports
  - Only those in the PMC process ‘count’

Done though NIHMS (NIH Manuscript Submission)

Cole SR, Zivich PN, Shook-Sa BE, Richardson DB, Hudgens MG, Edwards JK. Combining Observational Studies to Reduce Multiple Biases. Epidemiology. 2026 Sep 1;37(5):565-574. doi: 10.1097/EDE.0000000000001999. Epub 2026 May 15. PubMed PMID: 42138357; PubMed Central PMCID:

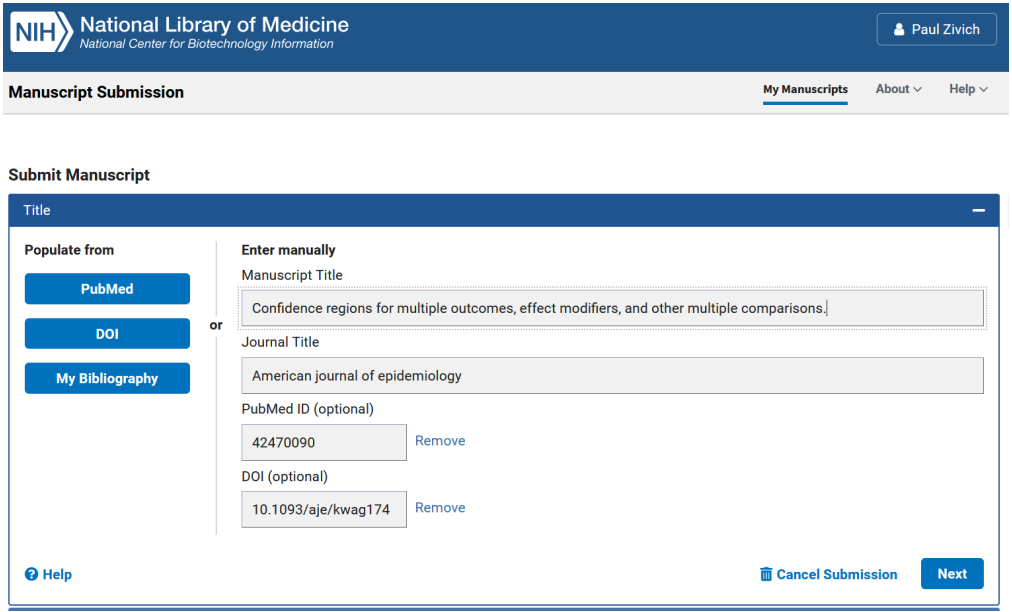

Public Access Compliance
Complete. PMCID: PMC13182983

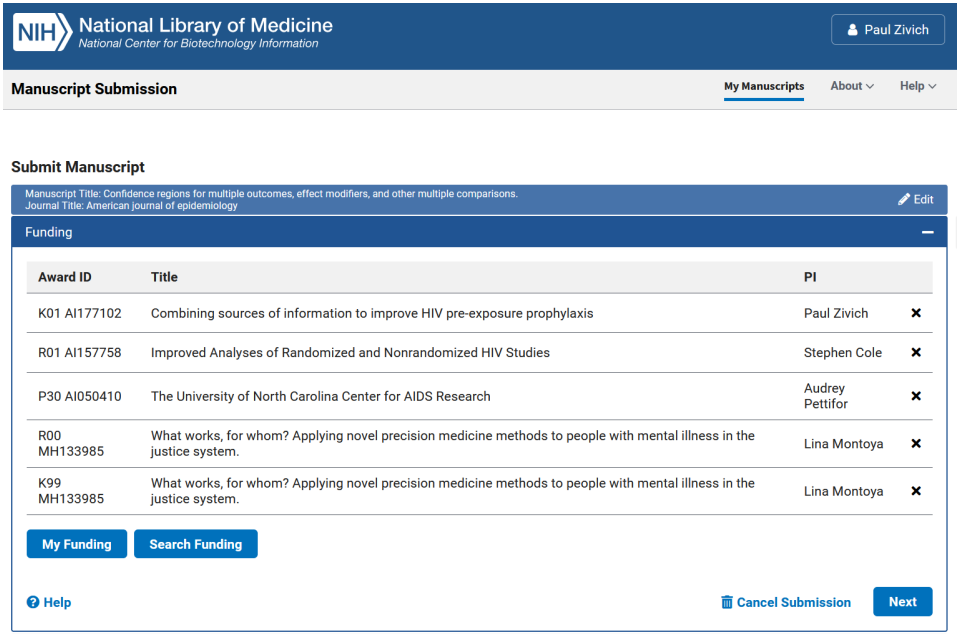

Initiating NIHMS Process

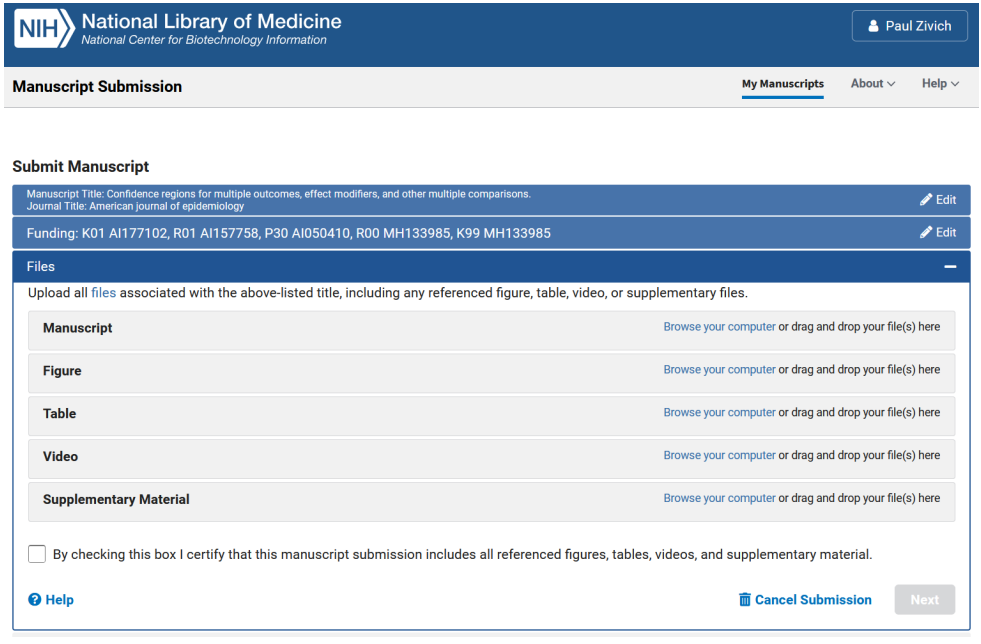

Depending on the journal, they may initiate this process for you

- Less common now after July 2025 policy change
- If publishing open-access some journals will

If journals do *not* start the process, can initiate from PubMed

Reviewer and Release Delay (Embargo)

Reviewer

A Reviewer is responsible for completing the initial approval and should be an author or a PI.

You may designate a different Reviewer than the one listed below.

If you are not an author or a PI for this paper, designate another Reviewer.

Reviewer: Current User (Paul Zivich) change

Funder Requirements

2024 NIH Public Access Policy

Author Accepted Manuscripts accepted for publication in a journal on or after July 1, 2025, and resulting in whole or in part from NIH funding that was active on or after July 1, 2025, are required to be submitted to PubMed Central upon acceptance for publication, for public availability without embargo upon the Official Date of Publication.

Was the Author Accepted Manuscript accepted for publication in a journal on or after July 1, 2025, and did it result from NIH funding, in whole or in part, that was active on or after July 1, 2025? *(Selecting "Yes" will set the embargo below to 0 months.)*

(●) Yes ( ) No

Release Delay (Embargo)

Indicate public access release delay (embargo)

The embargo is any delay, in months, that should be imposed after publication, before the manuscript is made available to the public in PubMed Central.

0 months ⚠ Embargo locked per Funder Requirements

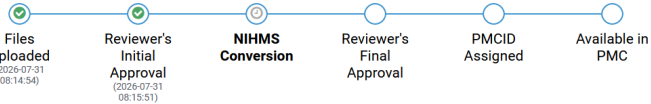

Manuscript Information

Manuscript Title:	Confidence regions for multiple outcomes, effect modifiers, and other multiple comparisons.
Journal Title:	American journal of epidemiology
Release Delay (Embargo):	Immediately
NIHMSID:	2200780
PMID:	42470090

Please Note: Manuscript deposit via NIHMS is a multi-step process that currently takes approximately 2 to 3 weeks following initial approval of a complete submission. Processing times may vary depending on Reviewer responsiveness and the volume of submissions during a given period.
